OUR CONCEPT

Secluded in a beautiful setting and neighborhood, This is a private, outdoor pool where families gather all year round. It's also a vibrant gathering spot that brings families and friends together to celebrate life and make lasting memories.

Simplicity, Plus a little more..

We want simplicity: a private, outdoor pool Just to relax, refresh and have small celebrations. That is what you get, but that's not all.

Attached to the pool area is a lounge to relax, have drinks and meals together - it's an exclusive space and niche area design for your comfort and privacy.

You also get to feel comfortable in a place where staff and other members know and recognise you, where you can text the owners for any reason.

Where you can keep an eye on your children from any spot on the property and are welcomed as friends and family.

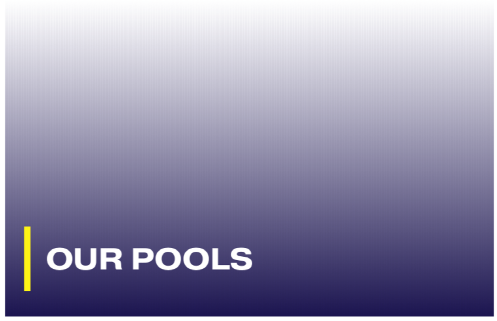

Aside from the standard pool we have mobile and mobile children's fun pool used on demand for small children under supervision.

We have also partnered with certified training organization's to provide swimming lessons for different needs and groups as well as diversified groups as the need arises.

Our partnerships include programs and activities to provide entertainment and relaxation for families and various groups carefully curated to capture and remain relevant to our community needs .

We also accept group and individual bookings for new ideas and innovative concepts that meet needs and empower our community and its environment

We are here to serve!
